Summary

Description	English: a portion if the dog food section of the pet products aisle of a New Hampshire supermarket. Dog food refers to food specifically intended for consumption by dogs. Like all carnivores, dogs have sharp, pointed teeth, and have short gastrointestinal tracts better suited for the consumption of meat. In spite of this natural carnivorous design, dogs have still managed to adapt over thousands of years to survive on the meat and non-meat scraps and leftovers of human existence and thrive on a variety of foods.
